Familiar with CMS, Node.js, Express.js, MongoDB, Java, C, C++.

Projects

Linkedin Clone:

- Clone a LinkedIn where user sign in with their google id. A user can post articles with pictures videos and can also delete articles.
- Private Routes are used in this project with **React Router**.
- Front end of this project is made on **React js** with Styled components and it is a responsive design.
- **React Redux** has been used as a state management tool in this project with **Redux-Thunk middleware**.
- For backend **firebase** is used as database and firebase storage for storing photos.
- **Deployed Link:** <https://linkedin-2b732.web.app>

IQ School of Finance:

- A fully responsive Landing page made for IQ School of finance using **HTML, CSS, Javascript** and **Bootstrap**.
- **Google Sheet** has been integrated with HTML form to store applicants information.
- Applicants id card photos are stored on firebase storage and the link to photos are stored on google sheets.
- **Deployed Link:** <https://iq-school-landing-page.web.app/>
